FIXDEX[®]
FASTENING TECHNOLOGY

GOODFIX

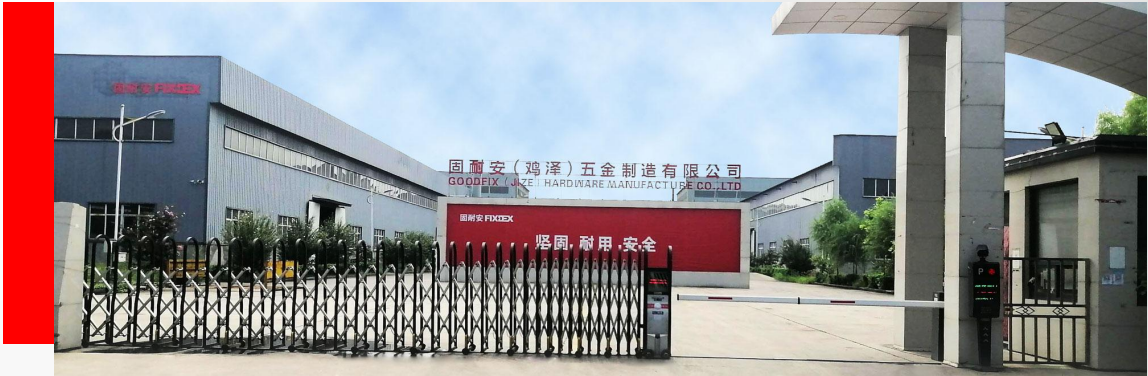

FIXDEX[®] — **GOODFIX GROUP**
FASTENING TECHNOLOGY

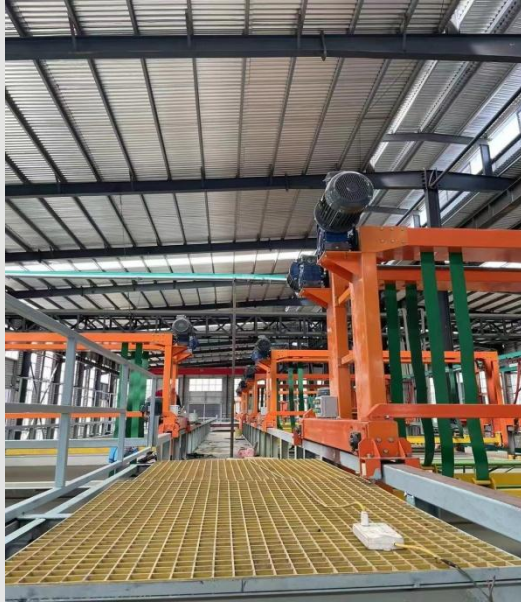

4 large scale manufacture unit:

- **Hebei Goodfix Hardware Manufacture Co., Ltd** It covers 30,000 square meters,mainly producing anchors and screws, with more than 150 staffs. --- Phase 1 factory
- **Goodfix (Jize) Hardware Manufacture Co., Ltd** covering 30,000 square meters, mainly producing threaded rod and thread stud. with more than 200 staffs. ----Phase 2 factory
- **HEBEI Matrix power Co.,Ltd** covering 270000 square meters, owing staff more than 300 staffs. This factory mainly producing photovoltaic bracket and refining wire rod. There are ten surface treatment producing lines. ---Phase 3 factory.
- We are the only factory with environmental zinc plating qualification inside the plants in China ---Phase 4 factory.

- ✓ **Advantages:**
- 10 Surface treatment producing lines
 - largest production scale in China with manufacturing area 330,000 square meters
 - Professional testing equipment and professional quality control engineer
 - MES system,and the workshop operation is visual.
 - ETA,ICC,CE ISO Certified factory
 - Self-owned international brand **FIXDEX**

- The only factory with environmental **zinc plating** qualification inside the plants.
- **10** surface treatment production lines

➤ **4** Electrogalvanizing producing lines

Salt spray testing can meet requirements of **72-158hours**, daily output is about **400tons**.

➤ **5** HDG producing lines

Salt spray testing can reach **800-1500 hours**, daily output about **300 tons**.

➤ **1** Pickling and phosphating production line

Daily capacity is about **200tons**

All the process inside manufacturing plants. Meeting requirement of different demand and field.

The **Forefront** of anchor, screw, threaded rod and photovoltaic bracket production scale.And focus on the high cost performance of our products.

Phase 1 factory :

- Monthly output of wedge anchor is more than **20 million** sets
- Monthly output of screws is more than **600 tons**
- Other exporting fastener products about **2000tons**

Large scale of production

Phase 2 factory :

- **Threaded rod**
Monthly capacity is about **10000tons**

Phase 3 factory :

- **4 Electro galvanizing producing lines**
Monthly capacity is about **12000tons**
- **5 HDG producing lines**
Monthly capacity is about **10000tons**
- **1 Pickling and phosphating production line**
Monthly capacity is about **6000tons**
- **Photovoltaic bracket**
Monthly capacity is about **10000tons**

Professional testing equipment and professional quality control engineer

- Professional QA laboratory with completed facilities,including Tension testing ;Shear testing ;Hardness testing ;Size testing projector;Salt spray testing; Drilling speed testing machine; Go-no go fixed gauges testing
- Quality control team with 15 quality control engineers and 50 QC staffs. That keeps our quality stable and zero defect.

Wedge anchor

Product Feature:

Raw material: Carbon steel, Stainless steel etc

Application: Widely used for fastening through objects

Material of application: Concrete and natural hard stone

Grade: DIN Class 4.8, 8.8 ; ANSI/ASTM G2, G5

Surface treatment: Galvanizing(blue&white zinc plated,white zinc palted, yellow zinc plated), HDG, Powder zinc plating

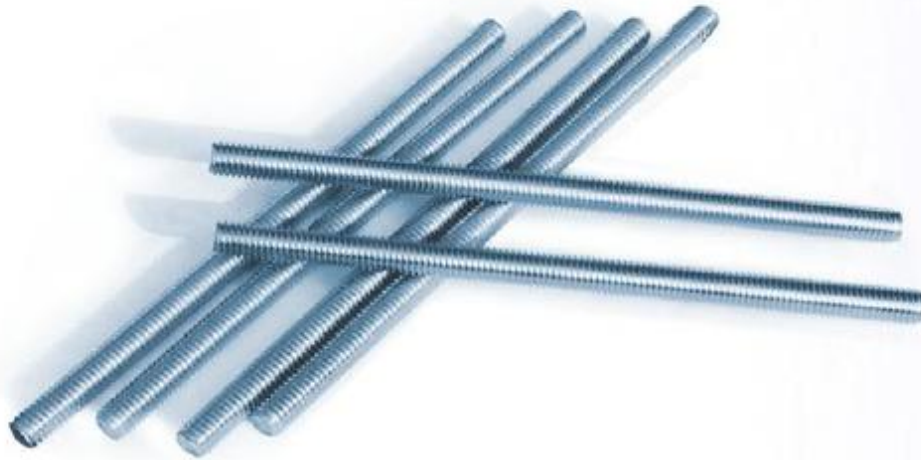

Electrogalvanizing zinc thickness \geq 5mm;

HDG thickness \geq 45mm

Certificate standard: ISO9001, Certified factory of ETA and ICC

FIXDEX[®]

CE  ISO9001

www.fixdex.com

Threaded rod

Product Feature:

Raw material: Carbon steel, Alloy steel, Stainless steel

Sizes: M4-M50; 3/16"-2"; length: 40mm-6000mm

Standards: DIN,ISO,ASME/ANSI, ASTM, BS, JIS, CNS, AS, EN,GOST, IFI ...

Grade standard:

DIN Class 4.8/8.8/10.9/12.9

ANSI/ASTM : Gr2/5/8/B7/A325 etc

Surface treatment: plain, black, zinc plated,yellow zinc plated, HDG, passivation

Thread types: UNC, UNF, BSW

Thread Bar

Product feature:

Raw material: Carbon steel, Alloy steel, Stainless steel

Sizes: M4-M50; 3/16"-2"; length: 40mm-1000mm

Standard: DIN,ISO,ASME/ANSI,ASTM,BS, JIS, CNS, AS, EN,GOST,IFI ...

Grade standard:

DIN Class 4.8/8.8/10.9/12.9;

ANSI/ASTM: Gr2/5/8/B7/A325 etc

Surface treatment: plain, black, zinc plated,yellow zinc plated, HDG, passivation

Thread types: UNC, UNF, BSW

FIXDEX[®]

CE  ISO9001

www.fixdex.com

Self drilling screws

Product feature:

Raw Material: C1022, C1018, Stainless steel

Application: mainly used in fixing of colored steel tile of steel structure and sheet metal of simple building

Surface treatment: blue zinc plated, yellow zinc plated, Dacro, etc.

Head types: truss head, csk/flat head, hex head, bugle head, etc.)

Tip types: #3,BSD etc

光伏支架系列

CE ISO9001

PHOTOVOLTAIC BRACKET

Surface hot dip galvanizing treatment,
corrosion resistance, long service life
Easy to install Photovoltaic
Bracket; Easy to operate, save time and
cost
Quality warranty
Professional design, diverse
specifications, customizable

FIXDEX®
FASTENING TECHNOLOGY

■ FIXDEX brand

FIXDEX Brand is registered in more than 50 countries and is known for its high cost-effective products. We passed the EU ETA Certification, CE Certification and China National Inspection Center certification.

More than 10 years of foreign trade experience, familiar with international standards and customer requirements.

For different customers, we provide products with customer market and requirement.

Our high quality products and professional service make us get the unanimous praise of customers at home and abroad.

The epidemic has cut off our face to face meeting. When the epidemic has improved or passed, we sincerely welcome everyone to visit our company. I believe we will become friends and partners through this exhibition.
